Technical Data:

- The description contained within this brochure is not a warranty for the performance of any of the products.
- The concept of acceptable flavour strength varies from market to market and palette to palette and is solely dependent on individual requirements.
- Dosage rates should only be considered as indications of levels appropriate for the application involved.
- Customers are urged to confirm the suitability of these quantities by undertaking appropriate tests as we are unable to accept any responsibility for unsatisfactory results obtained due to the omission of pre manufacture trials.
